DAVID **HOOF-AID™**

Active Constituents:
Oil of Turpentine
Lanolin
Pine Oil
Iodine

HOOF-AID™ gets results without using harmful mineral oils, acids or pine tar. It retains the natural oils in the hoof and supplements them. Yet it doesn't seal pores. Instead, it lets the hoof breathe, disinfects it, conditions it and stimulates rapid healthful growth.

HOOF-AID™ aids in the prevention of common conditions of dryness which results in brittle, shelly hoofs, hard frogs, quarter cracks, contracted and split heels.

HOOF-AID™ arrests fungicidal and bacterial infection, prevents thrush and speeds normal hoof development by stimulation through the coronet band.
