Your horse deserves a better ride

# Oz Glide

Smoother, Safer Ride

The Oz Glide is an Australian tow hitch dampening system has met Australian Design Rules for 3.5 tons. Oz Glide offers a smooth ride in both the tow vehicle and the horse float.

- ✓ Smoother ride
- ✓ Absorbs shock
- ✓ Increase safety
- ✓ Improves wet weather towing & steering
- ✓ Reduces leg fatigue for horses during transport.

The Oz Glide reduces the downward impact on the tow ball & thereby delivers increased safety & comfort for both the driver and passengers while reducing stress to your horse during transport.

"After testing Oz Glide for 19 weeks across approximately 1200kms my conclusion is that my horses are travelling more comfortably...and simply don't move around. One horse in particular used to be reluctant to load, but now seems altogether happier both loading and travelling - now he actually dozes off. (viewed by onboard cameras) The horses arrive in better condition and more importantly for me, in a good mood. I fully support the Oz Glide device and would recommend to my colleagues in the industry. So Simple but so Clever."

Gillian Leigh  
PC B Level Coach. PC Elementary Dressage Judge
